We can offer you comprehensive advice, or advice on a specific matter. The scope and nature of our advice services will be determined with your adviser based on what is appropriate to your specific needs, circumstances, and objectives, and what is in your best interests.

We will gain your agreement on the scope of advice services to be provided prior to preparing our recommendations to you within a Statement of Advice.

Our financial planning process

The following is a summary of the process that we will go through with you in order to develop, and maintain, a financial plan suited to your individual needs, circumstances, and goals.

Initial Consultation	A free, no obligation discussion with you to discuss your needs for advice, and how we can assist you to meet your goals, needs and objectives. During this discussion we will also explain our services and fee structure to you.
Discovery Process	In order to provide you with advice that is appropriate to your individual circumstances, we need to collect personal and financial information from you. To do this, we will ask you to complete some forms, including a Fact Find and a Client Risk Profile Questionnaire. We may also ask for other documentation such as superannuation statements, bank statements, etc. Your adviser will assist you through this process.
Determining your financial and lifestyle goals	Once we have gathered sufficient information about you, we can determine what your specific advice needs and objectives are. We will consider both your immediate financial needs, as well as your future goals and requirements, giving priority to those matters that are most important to you.
Engagement to Proceed	At this point, we will provide you with our Terms of Engagement. This will detail our understanding of your advice requirements, the specific services we propose to provide to meet those requirements, and how much it will cost you.
Developing and delivering your Financial Plan	We will prepare our advice recommendations to you within a “Statement of Advice” (SoA). This document will provide you with detailed information on the strategies and products that we recommend to assist you to meet your goals and objectives. We will present this to you, typically face to face so that we can answer any questions you may have. We will give you time to consider our recommendations and will only proceed once we are sure that you understand and agree to our advice recommendations.
Implementation of our recommendations	Once you have agreed to our recommendations and provided all relevant authorities to proceed, we will then implement our recommendations. This includes handling all fund and policy administration on your behalf, liaising with product and platform providers and other professional advisers as appropriate.
Ongoing Review and management	As part of our financial planning process, we provide annual ongoing review services to ensure that the recommendations that we provide remain appropriate to you over time, and as circumstances change. We will ask you to agree to an appropriate ongoing advice service when we present your financial plan.

We will always agree on the level of our charges and your payment options before proceeding with any work. Our Terms of Engagement will confirm the fee and specific services to be provided.

We will not charge you until you have agreed how we are to be remunerated.

How we will provide advice to you

We will document your financial plan within a document entitled a 'Statement of Advice'. The Statement of Advice will detail:

- A summary of your current situation, including your goals, needs and objectives
- The financial products, and strategic recommendations to you
- Information about how each of our recommendations will put you in a better position to achieve your financial and lifestyle goals
- Information on risks, costs and benefits associated with our recommendations
- Our Ongoing Service offering – detailing how we will work with you on an ongoing basis to ensure your financial plan remains appropriate
- Details about our advice fees – including Statement of Advice and Ongoing Review fees as applicable
- An "Authority to Proceed" confirming your agreement to proceed with our recommendations, and your Ongoing Review Service.

Costs of Advice

Our charge for the preparation of a Statement of Advice ranges up to \$9,900 (incl. GST) dependent on the complexity and scope of the advice provided.

This fee covers the preparation of the financial plan detailed in the Statement of Advice, all relevant meetings, and discussions in relation to the Statement of Advice. An implementation or paraplanning fee may also be charged ranging up to \$9,900 (incl. GST) and this is also dependent on the of complexity of the recommendations made, including administration, research required and the timeline of implementing your advice.

Fees may be payable up-front, upon presentation of the Statement of Advice, or upon implementation. We may choose to waive fees where negotiated or where you proceed with recommendations contained within the Statement of Advice.

Risk Insurance commissions

Where we recommend risk insurance products to you and we may agree together with you, rather than charging a fee for service, to receive commissions directly from the insurance company. These commissions are paid from the product costs and are not an additional cost incurred by you. The commission payable will depend on the product recommended, and on the amount of the premium paid or amount invested.

Where an insurer pays a commission, this may be up to 66% of your initial premium and then up to 33% of your ongoing premium. For example, if your premium is \$1,000 your adviser would receive \$600 initial and \$300 in ongoing commission.

Ongoing Review Service

We offer a comprehensive Ongoing Review Service. This service allows us to make sure that you stay on track to meet your financial and lifestyle goals and requirements.
